Bachelor of Computer science	Faculty of Computers and Information	Minya ,Egypt	09/2019 - 07/2023
<ul style="list-style-type: none"><li>• Major in information systems.</li></ul>			
Minya university ITI summer training	ITI	Minya ,Egypt	06/2021 - 07/2021
<ul style="list-style-type: none"><li>• Frontend web Development Track.</li></ul>			
Minya university ITI summer training	ITI	Minya ,Egypt	06/2020 - 07/2020
<ul style="list-style-type: none"><li>• Backend PHP and MySQL web Development Track.</li></ul>			

## Work History

Backend PHP (Laravel) developer	Freelancer	03/2023 - Present
<ul style="list-style-type: none"><li>- Develop new web applications, Maintain existing web applications, Integrate with other systems, Develop APIs and Consult on Laravel projects.</li></ul>		
Frontend React.js developer	EasyWayWeb Company	01/2023 - 03/2023
<ul style="list-style-type: none"><li>• Develop and maintain the user interface (UI) of websites and web applications using React JS and Next JS.</li><li>• Work with designers and back-end developers to implement new features and functionality.</li><li>• Test and debug code to ensure that it is working properly.</li><li>• Optimize code for performance and accessibility.</li></ul>		

## Frontend Projects

- [To My Portfolio](#)

## Backend Projects

### LaraGigs Website (MVC) [GitHub](#)

- Scalable and maintainable code: MVC architecture ensures code is organized, clean, and easy to maintain.
- Secure user experience: Robust authentication system protects user data.
- Role-based access control: Middleware ensures only authorized users access specific functionalities.
- Realistic data population: Faker provides realistic data for testing and demonstration.
- Live deployment: Demonstrates the ability to deploy and manage a web application.

### CRUD (REST API) [GitHub](#)

- Secure APIs: JWT authentication ensures secure access and data protection.
- Efficient Data Representation: Laravel Resource simplifies data formatting and response generation.
- RESTful Architecture: Promotes interoperability and integration with other applications.
- Demonstrates API Development Skills: Highlights your expertise in building and managing API backends.

### Native PHP E-Commerce Website [GitHub](#)

- Customizable and scalable platform: Built with native PHP and MySQL, offering flexibility and scalability for future growth and feature additions.
- Clean and maintainable code: MVC architecture ensures code organization, clarity, and ease of modification.
- User-friendly interface: The platform provides a user-friendly interface for both customers and administrators.
- Secure online transactions: The integration of a secure payment gateway ensures safe and reliable online payments.
- Admin control and flexibility: The comprehensive admin panel provides complete control over all aspects of the platform.

## Courses

---

- Coursera for PHP and MySQL (Introduction and Advanced Level) introduced by University of Colorado.
- Coursera for C# and Unity (Introduction and Advanced Level) introduced by University of Colorado.
- ITI for Backend development with PHP and MySQL.
- YouTube Courses in PHP, MySQL, Livewire, Laravel, APIs, Postman and JWT.
- Udemey Laravel (MVC).
- Udemey ASP.NET Core (MVC) for beginners.

## Voluntary Experience

---

- Technical Head in GDG Minya
- Technical member in GDG Minya
- Social media member in GDG Minya

## Awards and Recognition

---

- Coursera certificate for C# and Unity ( Introduction ) introduced by University of Colorado [ [Certificate](#) ]
- ITI certificate for PHP and Laravel (Advanced Level).

## Languages

---

- Arabic : Mother tongue (Native)
- English : Very-Good command both written and spoken
