Profile

ISTQB® Certified Senior QA Engineer with 3+ years of hands-on experience in both manual and automation testing across web and mobile platforms. Adept at designing test strategies, executing API and UI testing, and driving quality across SDLC. Proven track record in enhancing team efficiency and ensuring product reliability.

Professional Experience

Senior QA Engineer, OrobaSoft

01/2025 – present
Riyadh, Saudi Arabia

- Designed and executed test cases and test scenarios, identifying and reporting critical issues effectively.
- Led defect tracking and reporting processes using ClickUp and TFS, enhancing bug-tracking efficiency.
- Conducted comprehensive API testing using Postman, ensuring accurate functionality and seamless integration.
- Collaborated with cross-functional teams to refine project scope and align test objectives, improving project delivery timelines.
- Integrated automation tests for portal and mobile apps (using Selenium and Appium) into the testing lifecycle, contributing to improved coverage.
- Conducted regression testing to validate defect fixes and maintain software stability across updates.

Software Testing Instructor, Semicorner

04/2024 – present
Maadi, Egypt

- Developed and delivered courses on manual and automation testing.
- Mentored students and junior testers on testing methodologies and tools like Selenium.
- Integrated real-world scenarios into courses to bridge the gap between theory and practice.

Mid-Level QA Engineer, SBS - Specialized Business Solutions

01/2024 – 01/2025
Smart-Village, Egypt

- Automated test cases using Selenium WebDriver and TestNG to increase testing efficiency.
- Conducted API testing using tools like Postman to validate endpoints.
- Led test planning sessions to identify test scenarios and optimize coverage.
- Analyzed requirements and identified gaps to ensure product quality.
- Supported junior testers with mentorship and code reviews.

Software QA Engineer, Wakeb_Data

02/2022 – 01/2024
Mohandiseen, Egypt

- Conducted manual testing across multiple platforms, reducing defect leakage.
- Collaborated with developers to resolve identified issues, improving time-to-fixing.
- Performed functional and regression testing for web applications.
- Designed user-friendly test cases that optimized user experience testing.
- Designed and implemented test automation strategies, improving coverage.

Software Test Engineer Trainee, ITWorx Education

12/2021 – 02/2022
Nasr City, Egypt

- Conducted manual testing across multiple platforms, reducing defect leakage.
- Collaborated with developers to resolve identified issues, improving time-to-fixing.

Education

B.S. IN COMPUTER SCIENCE AND INFORMATION SYSTEMS, *MINIA UNIVERSITY*

09/2019 – 06/2023
MINIA, Egypt

Skills

◆ Testing Techniques:

Manual Testing, API Testing (REST), UI Testing, Regression, Smoke, Sanity, UAT

◆ Bug Tracking&CI/CD:

JIRA, Git, GitHub, Jenkins

◆ Automation Tools:

Selenium WebDriver, TestNG, Maven, Page Object Model (POM), Jenkins (Basic)

◆ Databases:

SQL Server, MySQL — Writing complex queries and joins for data validation

◆ API Tools:

Postman, REST Assured

◆ Soft Skills:

Analytical Thinking, Problem Solving, Communication, Team Collaboration, Time Management

Interests

Tech Meetups & Conferences (Always learning the latest in test automation)

Open-Source Contributions & Blogging (Sharing knowledge with the community)

Gaming & Coding Challenges (Because debugging is like solving puzzles!)

Certificates

ISTQB

Foundation Level

Introduction to Software Testing

ITI

Coursera certificate for C# and Unity introduced

University of Colorado

Entrepreneurship and Business

American University in Switzerland

Organisations

Google Developers Group (GDG) Minia, *Technical Head*

01/2021 – 09/2021
Minia, Egypt
